

CAL

CAPITAL ALLIANCE HOLDING PLC

INTERIM FINANCIAL STATEMENTS

FOR THE PERIOD ENDED

30TH SEPTEMBER 2026

Group Chief Executive Officer's Review - Interim Financial Statements

Dear stakeholder,

I am pleased to present the Quarterly Financial Review of Capital Alliance Holdings PLC (CALH) for the period ended 30th September 2026.

The Group recorded a loss of LKR 344mn for the quarter, of which LKR 240mn is attributable to the shareholders of CALH. This translates to a loss of LKR 0.12 per share. The loss in the past quarter is entirely attributable to the primary dealing business vertical of CAL (CALT-which CALH owns 86% of). Excluding CALT, the group has recorded a profit before tax of LKR 1.5bn and net profit of LKR 1.1bn for the first half of FY27.

Global capital markets have been rocked by the war in the Middle East this year. Sri Lanka and Bangladesh – both net energy importers – were hit particularly hard as crude oil prices effectively doubled from the beginning of the year, peaking at around USD 120 per barrel, and crack spreads (the premium of refined products such as petrol and diesel over crude oil) widened from a pre-war average of less than USD 20 per barrel to over USD 50 per barrel. Despite Sri Lanka's strong macro fundamentals, the Central Bank of Sri Lanka (CBSL) acted early and aggressively, raising policy rates by 100 basis points (bps) in May. The move broadly achieved its objectives, with weaker demand and slower credit growth averting any further weakening of the rupee. Capital markets were still adjusting to these changes at 30th September 2026: average daily turnover on the Colombo Stock Exchange (CSE) had declined to around LKR 1.5bn, and yields on Government securities were between 100 and 200bps higher than a year earlier.

At the time of writing, capital markets have rebounded significantly following the US midterm elections, the outcome of which has raised hopes of a de-escalation in the Middle East. Crude oil prices have declined by close to 20% from their late-October levels. The CSE has rebounded by close to 10%, with turnover recovering to more 'normal' levels. Yields on Sri Lankan Government bonds have fallen by as much as 80bps from their early-November peak, and now stand marginally below their levels at the end of the quarter. The effect of the US elections has been more muted in Bangladesh, but the direction has been the same. However, the geopolitical situation remains volatile, and the likelihood of a further flare-up in the Middle East remains high.

Counterbalancing these headwinds has been the domestic stability in Sri Lanka. In September, Fitch became the first of the major rating agencies to upgrade Sri Lanka's sovereign credit rating from CCC+ to B-. There remains a high possibility of further rating upgrades, and of Sri Lanka gradually regaining access to global capital markets. While the short term remains volatile and difficult to predict – and the recovery in Bangladesh is taking longer than we had anticipated – we firmly believe that the longer-term trajectory for both Sri Lanka and Bangladesh remains strong. Sri Lanka, in particular, appears to be positioned for a long-term decline in interest rates over the next three to four years – something all our businesses, from primary dealing to asset management and stockbroking, can benefit from.

Apart from primary dealing, CAL's other business units have, on balance, performed well during this financial year. Despite the geopolitical headwinds, operating income from non-primary dealing operations increased by 12% year-on-year to LKR 2.5bn. Investment banking fee income rose to LKR 241mn, from LKR 89mn a year ago, bearing out the strong pipeline I referred to last quarter. Asset management fee income grew by 18% to LKR 983mn. CAL private equity investments which leverages the Group's balance sheet, outside the primary dealing business, achieved a profit of LKR 575 mn for the first half of the year. Stockbroking remained subdued during Q2 with turnover on the CSE falling to its lowest levels of the year. This segment recorded a profit before tax of LKR 186mn.

On 2nd November 2026, CAL – through its Singapore subsidiary, CAL Global Pte Ltd – signed a share purchase agreement to acquire 51% of Asia Frontier Capital (AFC), a Hong Kong-based asset manager that focuses on frontier markets. Completion is subject to conditions precedent and regulatory approvals, including that of the Securities and Futures Commission of Hong Kong. The transaction has been many months in the making and, to our knowledge, marks the first time a Sri Lankan firm has moved to acquire an international asset manager. It is a significant step in our strategy of overseas expansion.

There are clear synergies between CAL and AFC. With over USD 1.2bn in assets under management (AUM), CAL adds scale to AFC, and muscle in terms of people, processes and technology. AFC, through its Cayman Islands-based fund management platform, gives CAL a way to tap global capital and match it with opportunities in Sri Lanka, Bangladesh and other frontier markets. While the entirety of AFC's USD 125mn in AUM is currently invested in listed equities, the company has a platform and the necessary infrastructure to channel global capital into a range of asset classes in frontier markets, including fixed income, private equity and structured products. AFC's footprint – a head office in Hong Kong, a representative office in Vietnam and dedicated funds for Iraq and Uzbekistan – significantly broadens CAL's reach and future growth prospects. Its reputation and 13-year track record of investing across frontier markets in Asia will strengthen CAL's credibility as we seek to enter new territories.

As we enter the closing stages of 2026, we look forward to 2027 with hope for a more stable and peaceful world. I am grateful to all our stakeholders for their continued confidence and support.

1 BASIS OF PREPARATION

These interim financial statements have been prepared in accordance with LKAS 34 "Interim Financial Reporting". They do not include all the information required for a complete set of SLFRS/LKAS financial statements. However, selected explanatory notes are included to explain the events and transactions that are significant to an understanding of the changes in the financial position and performance of the Company and Group since the last annual financial statements as at and for the year ended 31st March 2026.

In preparing these consolidated condensed financial statements, the management has made judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these

The significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the audited financial statements for the year ended 31st March 2026.

2 OTHER OPERATING EXPENSES

There is no withholding tax (WHT) on inter company dividends for the quarter ended 30th September 2026

3 BASIC EARNINGS PER SHARE

3.1 GROUP

The Earnings Per Share is computed on the profit for the period attributable to equity holders of the Parent Company divided by the weighted average number of ordinary shares outstanding.

	QUARTER ENDED		PERIOD ENDED	
	30-Sep-26	30-Sep-25	**30-Sep-26**	30-Sep-25

Weighted average number of Ordinary Shares	**2,072,049,345**	1,967,624,687	**2,072,049,345**	1,967,624,687
Basic Earnings per share - (Rs.)	**(0.02)**	0.53	**0.00**	0.55
Total number of shares outstanding as at	**2,072,049,345**	2,072,049,345	**2,072,049,345**	2,072,049,345

3.3 Diluted Earnings Per Share

There were no potentially dilutive ordinary shares outstanding at anytime during the period, hence diluted earnings per share is equal to the Basic Earnings Per Share.

4 CAPITAL MANAGEMENT

The policy of the Company and the Group is to retain a strong capital base so as to maintain investor, creditor & market confidence and to sustain future development of the business. Capital consists of stated capital, reserves and retained earnings. The Board of Directors monitors the return on capital, gearing ratio, dividend pay-out to ordinary shareholders.

The gearing ratio at the reporting date is as follows.

	GROUP		COMPANY

** Interest-bearing borrowings of the Group include a 32 Mn reverse repo liability under Capital Alliance PLC.*

5 FINANCIAL INSTRUMENTS

5.1 FAIR VALUE OF ASSETS AND LIABILITIES

Accounting classification and fair value of financial instruments

Financial instruments measured subsequently on the ongoing basis either at fair value or amortized cost. The summary of significant accounting policies describes how the classes of financial instruments are measured, and how income and expenses, including fair value gains and losses, are recognized.

The group measures fair values using the following fair value hierarchy that reflects the significance of inputs used in making the measurement.

Level - 1

Financial instruments that are measured in whole or in part by reference to published quotes in an active market. A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange and those prices represent actual and regularly occurring market transactions on an arm's length basis.

Level - 2

Financial instruments that are measured at fair value on a recurring basis. As market quotes generally are not readily available or accessible for these securities, their fair value measures are determined using relevant information generated by market transactions involving comparable

Level - 3

Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

6 COMMITMENTS AND CONTINGENCIES

There were no other material litigations or claims that could have a material impact on financial position of the Company or which would lead to a disclosure in the financial statements for the quarter ended 30th September 2026.

There were no material capital commitments as at the reporting date which require disclosures in the financial statements.

6.1 Other Commitments

The value of forward purchase contracts (Government Securities) as at 30th September 2026 is Rs. 5,697,889,000 (31st March 2026- Rs. 5,453,498,500) and the value of forward sales contracts (Government Securities) as at 30th September 2026 is Rs. 6,309,334,993 (31st March 2026 - Rs. 4,061,608,487).

7 EVENTS AFTER THE REPORTING PERIOD

There were no material events after the date of Statement of Financial Position that require adjustments to or disclosures in the financial statements.

8 SEGMENT REPORTING

Information about reportable segments

The Group's activities have been segregated into four different segments (Primary Dealer, Corporate Finance, Asset Management, Stock Brokering) based on the business activities that each unit is engaged for the purpose of reviewing the operating results of the Group as well as to make decisions about resource allocation

Segment information is presented in respect of the Group's business segments as per SLFRS 8. The Group's primary format for segment reporting is based on business segments.

The business segments are determined based on the Group's management and internal reporting structure.

For the period ended 30 September,	Primary Dealer		Corporate Finance		Asset Management		Stock Brokering		Eliminations/ Unallocated		Consolidated
