Amana Bank continues to maintain impressive profit momentum

- ***LKR 1.7 Bn in PAT for 9 months in 2026***

Having recorded its best-ever profit in 2025, Amãna Bank sustained its momentum, posting a Profit After Tax of LKR 1.7 billion and a Profit Before Tax of LKR 2.8 billion for the nine months ended 30 September 2026. This performance was achieved against a backdrop of prevailing economic challenges due to the geo-political uncertainties.

On the Bank's top-line performance for the nine months ending 30 September, Net Financing Income grew YoY by 11% to reach LKR 6.7 billion, supported by a steady financing margin of 4.3%. The Bank's Net Fee and Commission Income increased by 8% to LKR 1.1 billion. Net Trading Income for the 9 month period grew by 42% crossing LKR 400 million. Total Operating Income rose to LKR 8.2 billion, translating to a growth of 11%.

Inflationary pressures drove operating expenses higher, with the Bank recording a Cost-to-Income Ratio of 52% and an Operating Profit before all taxes of LKR 3.6 billion. The Bank's aggregate tax contribution of LKR 2.0 billion accounted for a significant 54% of the Bank's Operating Profit before all taxes.

The Bank consolidated its balance sheet performance, with Customer Advances growing by 6% during the 9 months to reach LKR 160.4 billion largely driven by the Bank's SME & Retail financing portfolio, which continues to support the national economy. The Bank's Net Impaired Financing and Advances (Stage 3) Ratio of 1.3% remained one of the lowest in the industry as a result of the Bank's effective risk management and underwriting standards, driven by its unique development focussed and people friendly approach to banking. Customer Deposits closed the quarter at LKR 179.7 billion while maintaining an industry high CASA ratio of 43%. The Bank's Total Assets stood at LKR 213.7 billion as of end Q3 2026.

The Bank recorded a Return on Equity of 8.6% and a Return on Assets of 1.8% for the period under review. The Bank's share was trading at LKR 26.80 as of 30 September 2026, compared to the Bank's Net Asset Value Per Share of LKR 48.36. The Bank's capital position remained healthy, with the Common Equity Tier 1 Capital Ratio closing at 12.2% and the Total Capital Ratio at 13.6%, underscoring the Bank's financial profile and stability. Liquidity buffers remained strong as at Q3 2026, with the Liquidity Coverage Ratios for Rupee and All Currency standing at 298.4% and 156.7%, respectively, and the Net Stable Funding Ratio at 139.4%, all comfortably exceeding the respective regulatory requirements.

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the Financial Statements:

Balances with Banks, Balances with Licensed Finance Companies, Other Financial Assets and Other Financial Liabilities

For the above, the carrying value is a reasonable estimate of fair values.

Financial Assets at Amortised Cost - Financing and Receivables to Other Customers

The fair value of the above are estimated by discounting the estimated future cash flows using the prevailing market rates for financing as of the reporting date with similar credit risks and maturities (Level 3).

Financial Liabilities at Amortised Cost - Due to Depositors

The fair values of the above are deemed to approximate their carrying amounts as rate of returns are determined at the end of their holding periods based on the profit generated from the relevant investments.
